

Transport heavy loads easily:

# OdeSea TX-65

## Aluminum Outboard Motor Trolley

Handy, light and universally adjustable

Hello ,

every year, owners of motorboats and sailboats are faced with the same challenge: Either the outboard motor has to be dismantled and stored for the winter, or the other way around, it has to be removed and mounted for the season. Transportation is often the biggest hurdle here. Even on trolleys, outboard motors are typically too large, heavy and unwieldy.

The TX-65 provides a remedy. It is universally adjustable to any outboard motor up to 60 kg.

The low weight of 4.3 kg and the compact design ensure that the TX-65 can be placed almost anywhere without any problems. This also makes it the ideal carrier for maintenance work and longer storage. The foldable trolley TX-65 is also suitable for long tail engines.

### The OdeSea TX-65 Aluminum Outboard Motor Trolley: compact, light and strong.

39 x 22,5 x 72 cm

4,3 kg

up to 60 kg load-bearing capacity

When folded, the TX-65 measures (W x L x H): 39 cm x 22.5 cm x 72 cm.

The solid square tube design and mounting mechanism provide strength and stability with a net weight of only 4.3 kg.

Universally adjustable to any outboard motor up to 60 kg.

Welcome to the wonderful world of fasteners

## New year - new diversity

We have relaunched our website and redesigned our logo.

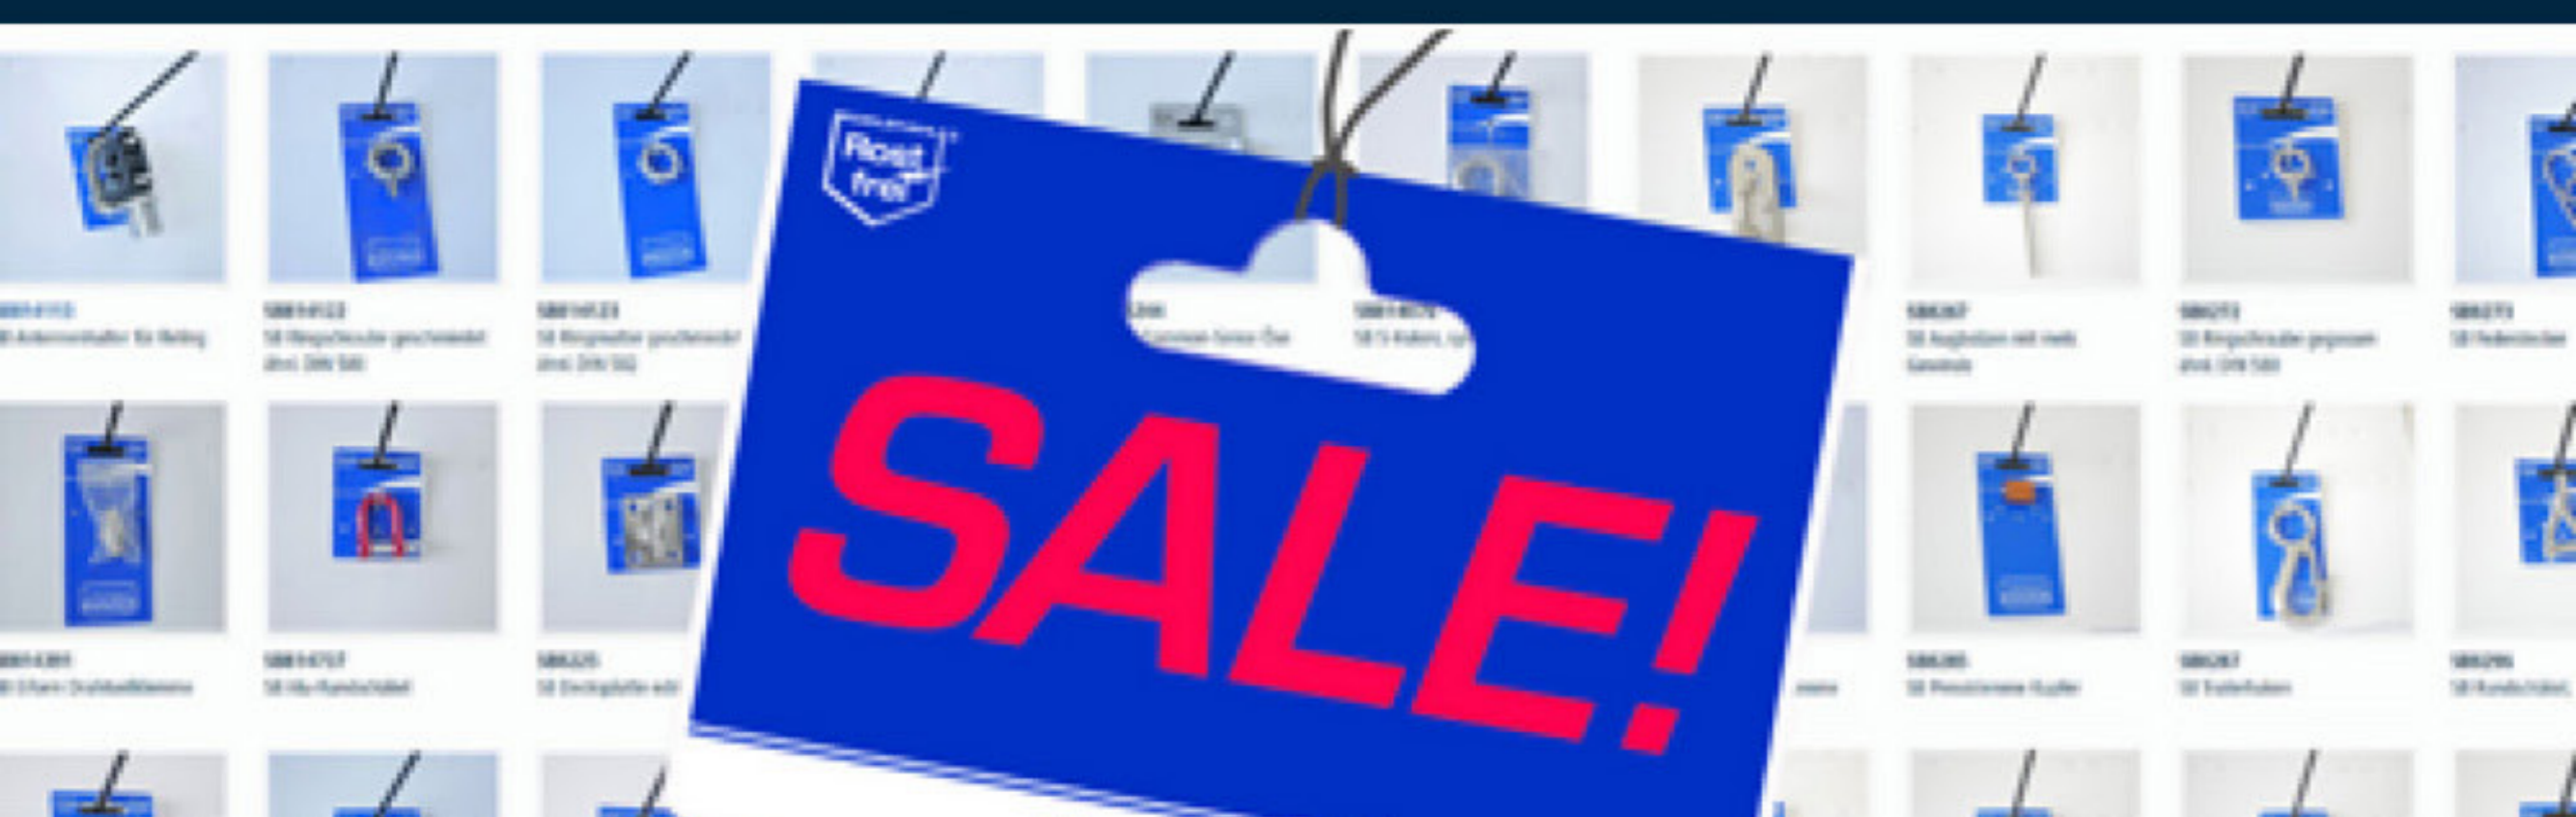

Why? Because we are much more than a supplier „only“ for boat accessories. That's what we want to show to the market.

Products made of stainless steel that withstand the harsh conditions at sea are our roots and continue to be our claim. However, more industries than shipping benefit from this by now. Companies from a wide range of sectors value our stainless steel fasteners for their products.

Packaging changeover

## Everything old has to go!

In our store we have many blistered products at significantly reduced prices.

Hinges, screws, shackles, hooks, thimbles as well as many other high quality items can now be found in the [SALES section](#).
