The Marinotech Summersale

Stainless steel Tubes, Tubes connectors and fittings*

For all situations - welded, polished, and flexible

AISI 304: for indoor applications in the food, catering, and kitchen sectors, for machines and systems, as scaffolding elements in interior design, and much more.

AISI 316: for use in seawater systems, in the chemical and pharmaceutical industries, in agriculture, in gardening, horticulture, and architecture.

And last but not least: in ship and boat building... perfect for railings, sprayhoods, and bimini tops.

With railing feet, tube holders, handrail pieces, adjusting rings, tube caps, sleeves, and fittings — top quality for maximum safety and durability.

***Save now on your pipe order (prod. no. 8292 ...) between**

September 16 and October 3, 2025:

5% special discount for orders over €500

10% special discount for orders over €1,000

Absolutely flexible:

Length, width, and thickness

from 19 to 60 mm in diameter, 1.5 and
2.0 mm wall thickness and up to 7 meters in
length

Do you require additional dimensions or larger quantities?

Please ask your contact person!

With matching accessories. For example:

Four-way-tube connector

- **Flexibility** – Enables complex connections in many directions
- **Stability** – Ensures a strong, secure connection between pipes
- **Versatility** – Ideal for a wide range of applications

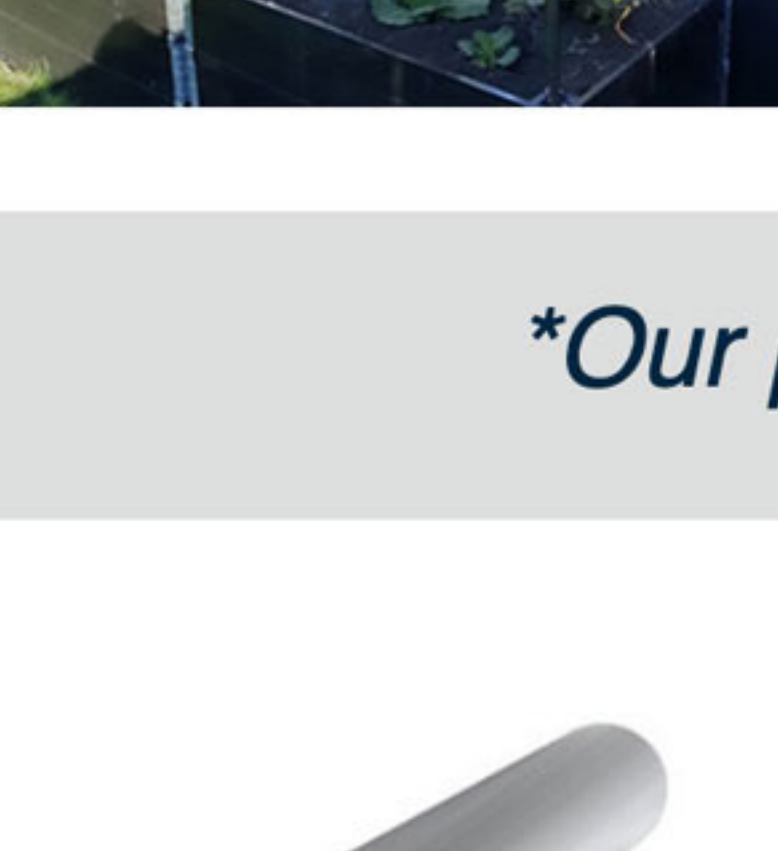

or

Top cap - a secure closure

- Protects against damage and injuries
- Enables flexible design of various pipe connections
- Suitable for self-assembly
- Prevents the ingress of dirt and water

NEW

By the way: also perfect for the garden!

Our stainless steel tubes and tube connectors are also ideal for raised beds, climbing supports, or other plant structures: the rustproof connections are durable, weatherproof, and easy to assemble.
